About

Frontend Developer with 3+ years of experience building production web applications with React, Next.js, TypeScript, and Tailwind CSS. Experienced in developing reusable UI systems, integrating REST APIs, managing application state with Redux and Zustand, and building responsive, maintainable interfaces.

Currently working at Tavana, contributing to production applications in a collaborative development environment with a focus on performance, usability, and scalable frontend architecture.

Experience

• Tavana

November 2024 – Present

Frontend Developer

Tehran, Iran

- Developed and maintained production web applications using React, Next.js, TypeScript, and Tailwind CSS.
- Built reusable and responsive UI components with a focus on maintainability, consistency, and user experience.
- Implemented data fetching and server-state management using TanStack Query, including API integration, caching, and asynchronous data handling.
- Contributed to the development of an internal UI component library and design system, creating reusable components such as buttons, inputs, form elements, validation states, and error handling patterns.
- Worked with Redux and Zustand for client-side state management across different application features.
- Integrated frontend applications with REST APIs and collaborated with backend developers to implement and deliver new features.
- Gained hands-on experience with CI/CD workflows, contributing to the development and deployment process of production applications.
- Collaborated with developers and other team members in an agile environment, participating in feature development, code reviews, debugging, and maintaining existing applications.

• Blueprint

March 2024 – November 2024

Frontend Developer

Tehran, Iran

- Developed and maintained web applications using React, Redux, Zustand, and modern frontend technologies.
- Built responsive and reusable UI components for multiple production projects.
- Integrated frontend applications with backend REST APIs and implemented data-driven interfaces.
- Collaborated with the development team to deliver features and resolve frontend issues across multiple projects.
- Contributed to three active production projects, including:
 - * **Pax Cast** — Medical imaging platform that enables patients to access medical images and reports while allowing imaging centers to manage their services.
 - * **Marvel Quiz** — Online examination platform where users can browse and purchase exams, manage questions and PDF materials, and complete multi-booklet exams with online answer sheets.
 - * **One Coach** — Training management platform for coaches and trainees, including exercise management, instructional videos, training sessions, and progress tracking.

• Freelance

2022 – 2024

Frontend Developer

Remote

- Developed responsive web applications for multiple clients using React, Next.js, and TypeScript.
- Built reusable UI components and integrated REST APIs.
- Developed admin dashboards and data-driven interfaces.
- Collaborated directly with clients to translate requirements into production-ready web applications.

Education

- **Azad University**

Master's Degree in Software Engineering

2023 – Current

Tehran, Iran

- **Semnan University**

Bachelor's Degree in Computer Science

2017 – 2022

Semnan, Iran

Skills

- **Fundamentals:** HTML, CSS, JavaScript, Responsive Design
- **Frontend Frameworks:** Next.js, React.js
- **State Management:** Zustand, Redux, Redux Toolkit, Redux DevTools
- **CSS Frameworks:** Tailwind CSS
- **Version Control:** Git, GitHub, GitLab
- **Other Tools & Libraries:** REST API, NextUI, Material UI, i18next, Framer Motion, Swiper.js, React Hook Form

Certifications

- **Quera Front-End Bootcamp**

Languages

Persian — Native

English — Intermediate (B1–B2)
